Subject: (E15601) Mid Valley Pipeline Oil Spill - Call for volunteers
Date: Wednesday, October 15, 2014 1:00:11 PM

Bill continues to respond to the incident north of Shreveport. The response is likely to continue several more weeks. We are looking for availability starting tomorrow for the next three weeks. Please let me and your supervisor know if you are interersted in assisting.
Thanks

Subject: Need an R2 and possibly additional support for current oil response

Please give Gary Moore your availability as soon as you can. The R1 was sent out last night regarding an oil spill near Caddo Lake. Therefore, we need to identify an R2. In addition, the oil spill could be as much as 4000 bbls. Bill Rhotenberry is currently on site and assessing the scope of the spill. There is a chance that we will need to provide Bill with additional resources. Once again, please let Gary know you availability as soon as possible for the R2 as well as the possible support to the current oil spill.

Thank you,
Ronnie
